PROFESSIONAL SUMMARY

Senior QA Automation Engineer with **5.6+ years** of experience in software testing, including **3+ years** specializing in API and end-to-end test automation in the **payments domain**. Experienced in designing, developing, and maintaining scalable automation frameworks using **JavaScript, TypeScript, Jest, Playwright, NX Monorepo, and CI/CD pipelines**. Proficient in **REST API testing, schema validation, functional, integration, regression, and end-to-end testing** for **microservices-based applications**. Strong experience collaborating with cross-functional Agile teams to improve software quality, automate testing processes, and deliver reliable, high-quality software releases

TECHNICAL SKILLS

Test Automation: JavaScript, TypeScript, Cypress, Jest, Playwright, NX Monorepo, Test-Driven Development, API Testing, RESTful API, Schema Validation, E2E Testing, Integration Testing, Regression Testing, Performance Testing

DevOps & Tools: CI/CD Integration, Git, Insomnia, Claude API, Slack, Linear, Jira, Notion, Automated deployments

Domain & Expertise: Payments, Fintech QA, Merchant Systems, Payment Systems, PCI-DSS, Microservices Architecture, Agile/Scrum, Test Strategy, Test Planning, Defect Management, **Mentoring**

EXPERIENCE

Senior Member of Technical Staff in Testing

Surfboard Payments

Mar 2026 - Present

- Lead test automation strategy for multi-functional payment platform (10+ microservices, 100+ API endpoints) achieving 60% test coverage increase and 75% regression testing time reduction
- Architected scalable NX Monorepo infrastructure enabling 5+ teams to adopt automation with minimal onboarding. Developed AI-powered automation agent using Claude API achieving 45% MTTR reduction
- Built schema-mismatch detection system resolving 25+ schema mismatches preventing 100+ potential integration bugs. Refactored test suite improving discoverability by 70%

Software Engineer (Test) - QA & Test Automation

Surfboard Payments

Jul 2021 - Mar 2026

- Mentored 2+ interns during test automation projects improving their technical skills resulting in successful project contributions and career development
- Designed comprehensive API and E2E test automation framework supporting 10+ microservices with 100+ API endpoints using JavaScript, TypeScript, Jest, Playwright, and Insomnia
- Built automated E2E test coverage for Terminal Management System with 40+ test scenarios achieving 95% coverage. Conducted QA for LendHope platform performing functional, integration, usability testing for 5,000+ learners

Software Engineer Trainee (Test)

Surfboard Payments

Feb 2021 - Jul 2021

- Improved foundational QA expertise in test planning, manual testing, defect tracking, and technical documentation. Executed comprehensive testing on 2 dashboards and mobile application serving 5,000+ learners, identifying 20+ functional defects

PROFESSIONAL DEVELOPMENT

- Expertise in Agile/Scrum methodologies and cross-functional team collaboration. Continuous learning in Playwright automation, Jest testing frameworks, TypeScript proficiency, and AI-powered testing solutions with Claude API
- Strong foundation in Software Development Lifecycle (SDLC) and Quality Assurance best practices. Proficiency in test strategy, test planning, defect management, and technical documentation

EDUCATION

B.E. in Computer Science and Engineering - SKP Engineering College, Tiruvannamalai

Aug 2016 - Apr 2020
